

Nonresident Students

Consistent with Chapter 28A.225 RCW, any student who resides outside the district may apply to attend a school in the district or file the parental declaration of the intent to provide home-based instruction and enroll for ancillary services, if any. All applications for nonresident attendance or home-based instruction will be considered on an equal basis.

The Index Board of Directors annually will inform parents of the interdistrict enrollment options and parental involvement opportunities. Information on interdistrict acceptance policies will be provided to nonresidents on request. Providing online access to the information satisfies the requirements of this policy unless a parent or guardian specifically requests information to be provided in written form. The district will not charge any transfer fees or tuition costs for enrolling eligible nonresident students.

A parent or guardian will apply for admission on behalf of his or her child by completing the appropriate district application. The superintendent will develop an application form which contains information including, but not limited to, the current legal residence of the child and the school district in which he or she is currently enrolled or receiving home-based instruction, the basis for requesting release from the resident district and the specific building and grade level (elementary) or course offerings (secondary) in which the student desires to be enrolled if accepted by the district.

A student who resides in a district that does not operate a secondary program will be permitted to enroll in secondary schools in this district in accordance with state law and regulation relating to the financial responsibility of the resident district.

Standards for accepting or rejecting an application

The superintendent will accept or reject an application for nonresident admission based upon the following standards:

- A. Whether acceptance of a nonresident student would result in the district experiencing significant financial hardship ("financial hardship" does not include routine programmatic costs associated with serving additional disabled or non-disabled students);
- B. Whether in the grade level or class at the building in which the student desires to be enrolled has the capacity for additional students;
- C. Whether appropriate educational programs or services are available to improve the student's condition as stated in requesting release from his or her district of residence;
- D. Whether the student's disciplinary records or other documentation indicate a history of violent or disruptive behavior or gang membership (a gang means a group of three or more persons with identifiable leadership that on an ongoing basis regularly conspires and acts in concert mainly for criminal purposes);
- E. Whether the student has been expelled or suspended from a public school for more than ten consecutive days, in which case the student may apply for admission under the district's policy for readmission and reengagement of suspended or expelled students; and
- F. Whether enrollment of a nonresident student would conflict with a district innovation academy cooperative under RCW 28A.340.080.
